

## Flour Subsidy Cuts Wheat Price

Issue is taken with the Dominion Minister of Agriculture concerning the domestic wheat subsidy in a telegram forwarded to Prime Minister MacKenzie King by The North-West Line Elevators Association today. The Line Elevators urge that the burden of this subsidy should be removed from the backs of the western farmers immediately rather than at the earliest possible future date as proposed by the minister of agriculture. The Line Elevators point out the subsidy is costing the western farmer \$1.03 on each bushel of wheat milled in Canada for domestic consumption rather than the 30 cents indicated by Hon. J. G. Gardiner.

The wire forwarded to the prime minister reads:

"The Dominion Minister of Agriculture is reported in the press as having stated that the government has decided to remove, at the earliest possible date, the thirty cent subsidy being charged to wheat farmers on wheat milled in Canada for domestic use. Removal of this subsidy from the shoulders of the farmer is in accordance with representations made by the Line Elevator Companies to your government.

"We desire to point out that the subsidy charged to the farmer on all wheat consumed in Canada is not limited to thirty cents per bushel. It is now

\$1.03 per bushel. The Canadian Wheat Board is today selling wheat at \$2.28 per bushel to all countries other than the United Kingdom which country is getting its wheat under the British Canadian Wheat Agreement at the reduced price of \$1.55 per bushel. The Canadian Wheat Board now names \$2.28 as the true current value of wheat.

"When price controls were instituted on grains in 1942 the Wheat Board continued to supply millers with wheat at a net price of 77 3-8 cents per bushel. The farmer now is credited with \$1.25 per bushel on wheat supplied by the Canadian Board to mills. By increasing this amount to merely \$1.55 the government would still not be paying the farmer the true current value for his wheat. The Wheat Board should secure \$2.28 per bushel for the farmer on current sales to Canadian mills.

"If the government of Canada feels that the Canadian consumer of flour should be subsidized then the cost of that subsidy should be borne by all citizens of Canada through the Dominion Treasury. We feel that it is unreasonable to expect the wheat grower to continue subsidizing Canadian bread consumers to the extent of \$1.03 on each bushel of wheat consumed in Canada.

The North-West Line  
Elevators Association.

## Japs Go Home

The fifth and what may be the last party of voluntary Japanese repatriates will sail from the West Coast for Japan during the week of November 25 it has been announced.

In the four previous sailings of this type, almost 3,800 Japanese volunteered to go to Japan.

It is anticipated that 175 Japanese will leave on this sailing.

## No Service at United Church Sunday

Preaching service and Sunday School will be cancelled in Carbon United Church on Sunday, November 17, to enable all to attend dedication services at Carbon Baptist Church on that date.

If you have no answer for the serious conditions in the world you refuse to face how serious they are.

## Subscriptions

## Treasure Found At Rockyford

ROCKYFORD — Fritz Hiemlemer is convinced that it pays to be tidy, and has money to prove it.

While housecleaning his garage recently he came across a rusty tobacco tin. Prying off the lid, to his surprise he found bills totalling \$600 tucked away inside the discarded tin.

## NOTICE

### CARBON BAPTIST CHURCH DEDICATION

Dear Friends of the Community

We, the Carbon Baptist Church, take great pleasure in announcing this long anticipated occasion—the dedication of our newly built Church, which is to take place on Sunday afternoon, November 17, 1946.

All interested friends are heartily welcome to fellowship with us.

The Carbon Baptist Church.  
CHRIS HARSCH,  
Church Clerk.  
E. M. WEGNER,  
Pastor.

## CARBON AND DISTRICT NEWS NOTES

Mr. A. R. Walker left on Friday to spend the winter at Penticton.

The Gamble Ladies' Aid will hold a bazaar and tea on Monday, November 23. Everybody welcome.

There will be a service in Christ Church, Carbon, Sunday Nov. 17 at 3 p.m. Canon T. B. Winter in charge.

Mr. and Mrs. Clarence Reed of Calgary were week-end visitors at the home of Mr. and Mrs. C. Trumbley.

The IODE dance on Monday evening was well attended and from all reports a financial success.

Show as usual in the Scout Hall tonight.

The Carbon Old Timers Association are holding their annual banquet and dance in the Scout hall Wednesday, Nov. 20.

Mr. and Mrs. J. Adams and family moved into the residence recently vacated by J. Gablehouse this week.

Looks like the S. Wright and J. Hunt families will now be moving into the houses they purchased some time ago.

A group of people were present at the home of Mr. and Mrs. Shyka last Friday evening celebrating the engagement of Miss Rose Shyka to Leslie Obbagy.

Equality won't come through the distribution of wealth but through a change of heart.

## WEDDINGS

Kniesel - Hagel

St. Mary's Church, Beiseker, was the scene of a very pretty wedding on Wednesday, Nov. 6 when Rose Marie Hagel, eldest daughter of Mr. and Mrs. Anton Hagel, Beiseker, became the bride of Matthew Joseph Kniesel, son of the late Mr. and Mrs. Kniesel, Trochu.

Rev. A. E. Tennant performed the ceremony and celebrated the nuptial mass. Rev. Fr. Keenan, Trochu, was present in the sanctuary.

The bride, given in marriage by her father, was lovely in a floor length gown of white tulle. Her long veil was caught with a heart-shaped wreath of white feathers and her bouquet was of red roses. Her only ornament was a gold locket, a gift from the groom.

She was attended by her sister, Margaret Hagel, who chose a gown of blue lace net over taffeta with a blue chapel veil caught by a heart shaped wreath of blue feathers and carried a bouquet of white pom-poms and pink roses.

The groom was attended by the bride's brother, Frank.

After the ceremony a reception was held for about 50 immediate relatives and friends at the bride's home. A three-tier wedding cake centred the bride's table.

Fr. Keenan proposed the toast to the bride which was responded to by the groom.

The bridal couple motored to Great Falls, Mont., for their honeymoon and on their return will reside at Delia.

Having good times doesn't bring about good times.

## Where are the Shirts, Mr. Gordon?

The third in Donald Gordon's series of broadcasts was entitled "The Shirt on Your Back" and was delivered Friday evening over the CBC. No doubt a good many men listened to it, hoping to find out precisely why they couldn't get shirts or shorts.

They were sadly disappointed. The chairman of the War-time Prices and Trade Board talked all around the subject. And so far from explaining why shirts and shorts are virtually unobtainable, he implied in his speech that they were right there on the counter, waiting to be bought.

"It is important," said Mr. Gordon, "to understand that it is not the manufacturer who benefits from the fixed prices established by the Prices Board for cotton; it is the Canadian consumer as he buys shirts or underwear." But where does he buy the shirts, Mr. Gordon? And where does he buy the underwear?

Yet again: "If the government had not declared its intention of keeping the subsidies on cotton during this period of disorderly markets, here are a

## Henry Stockl, Edith Gobel, Married

A wedding of interest took place in the Pro-Cathedral, Calgary, when Edith, daughter of Mr. and Mrs. P. Gobel, Calgary, became the bride of Henry Stockl, Carbon. Dean Syme performed the ceremony.

The bride wore a floor length gown of white satin. Miss Gladys Robertson was bridesmaid and chose blue satin.

The groom was supported by Louis Gobel, brother of the bride.

After a short while in Calgary Mr. and Mrs. Stockl returned to Carbon on Tuesday evening where they will reside.

## To Point a Moral

After making a yearly profit of some eight million dollars on the sale of 7 million gallons of beer and 233,000 gallons of spirits, the Alberta government has purchased a house in Edmonton for Alcoholics Anonymous.

After pondering over this we are not sure whether or not the government had a twinge of conscience. There seems to be something incongruous about the whole situation.

Brooks Bulletin

## OFF THE RECORD

There are many people in Canada who claim that the Federal government's ten cents an hour wage increase pattern to settle wage disputes was a premature creation and should be cut out completely. Of course no one will argue that it is childish for a government to play with cut outs!

few examples of the price adjustments that would result: shirts, selling at \$2.50 would rise by 40 percent. "What shirts? And where are they selling at \$2.50?"

If Mr. Gordon will inform this newspaper where men's shirts (we presume he means the ordinary dress style) may be purchased at \$2.50, we will tell our readers immediately. Thousands of them would dearly love to buy a man's shirt at \$2.50.

Come to that, they would dearly love to buy a man's shirt at \$2.50 plus 40 percent—i.e. at the price from which the WPTB through cotton subsidies, has mercifully spared them.

One more quotation: "I agree at once, of course, that there are shortages in relation to the quantities which many people would like to buy." Well that's fair enough. These days, a man can hardly expect to buy six shirts. Or three shirts. Or even two. But the question remains—why can't he buy just one? This is the question Mr. Gordon has signally failed to answer.

### Roll Up Your Sleeves

Our nation was built by men who were not afraid to roll up their sleeves and toil. We are enjoying the fruits of their labors. Our forefathers had what is known as the pioneer spirit. We need more of it today. There are too many people always seeking to get something for nothing. Their numbers are becoming more numerous, and they are leeches, sucking the life blood out of a successful Canada. Hard work never hurt anyone. We need more of it.

### World of Wheat

Three new cereal varieties—two of wheat and one of barley will appear on the prairies this year.

#### Redman Wheat:

Somewhat earlier than Thatcher. Resistant to stem rust and to bunt or stinking smut. Highly resistant to leaf rust, loose smut and root rot. High in milling and baking value. Yields well. A small amount has been distributed to farmers who made applications long ago. Supplies are now exhausted.

#### Rescue Wheat:

Resistant to saw flies, but not quite equal to Marquis in baking quality. Can only grade No. 3 Northern. Those who require small amounts should apply to the Dominion Experimental Farms at Lethbridge or Swift Current.

#### Montcalm Barley:

A smooth awned barley closely resembling OAC 21. High malting qualities. Those who require a few bushels should apply to the Alberta or Saskatchewan or Manitoba Crop Improvement Associations or to the Crop Testing Plan, Winnipeg.

#### A New Oat Variety:

Considerable publicity has already been given to an outstanding new oat variety. The fact is that there are several

new varieties. A choice has to be made soon by the Dominion Plant Breeders' Committee. Should one of these varieties be accepted then the small lots available will probably be distributed to professional seed growers only for further multiplication.

## Drumheller Municipal Hospital

### SALE OF SPECIAL CONTRACTS

The Board of the Drumheller Municipal Hospital District No. 3 announce that special contracts will be sold to those non-ratepayers resident within the boundaries of the hospital district who are desirous of obtaining the \$1.00 per day rate and reduced rates for extra services for themselves and their immediate dependents at the hospital in Drumheller. Sale of these contracts will begin immediately and will continue until January 15, 1947. These contracts will be effective January 1, 1947, and will remain in force until December 31, 1947. Contracts may be purchased at the Business Office of the hospital in Drumheller for the sum of \$10. Remittances may be made by mail.

Any further particulars desired may be obtained from the undersigned.

LEONARD WILSON,  
Secretary Treasurer.

## Play Another Tune

The Alberta Motor Association keep harping about all the monies the government receives from motor car and truck licenses and that it should all be spent on highways. Pure rubbish.

The government is making a good job of road building in this young province and we venture to say in ten years our highways will be on a par with any in Canada.

Let the A.M.A. boost the fine highways that are now practically completed from the border to Edmonton via Banff or south of Calgary and they would do more for this country than continually knocking the governments road policy.

The A.M.A. is a worthy organization and has its place, but they apparently have overestimated their own importance. Road building is very important but the government have other important services they give the public and of necessity some of the money must come out of car and truck licenses. Running the government is just like any other business only in a bigger way.

Olds Gazette

## Fred White's Mistake

Fred White is a printer. Perhaps in his early days as the "devil" in the composing room he swept out the office, lit the fire in the old base-burner and did other odd jobs to fill in the time. That may be the explanation for the fix Alberta's Fred is in just now.

Mr. White went to Calgary to ply his trade in the print shops, rose to be an alderman and about 25 years ago he was elected a Labor member of the Alberta legislature. Where he stands on problems of labor can leave no doubt.

It was because he was an outstanding labor man that Mr. White was chosen to help set up the Unemployment Insurance Commission, and he is now regional superintendent of this big machine from the head of the Great Lakes to the Pacific. That's big job.

Recently Mr. White in travelling around the offices under his jurisdiction noted that the windows of many offices were dirty. He also noted that no all junior clerks seemed to have enough work to keep themselves busy. He put two and two together, remembered his days as the print shop devil and sent

out an order that, in their spare time, the juniors should wash the windows of the commission's offices.

Then the storm broke when the junior clerks objected. It involved the Minister of Labor, the Deputy Minister of Public Works and a whole lot of lesser lights in the seats of the mighty at Ottawa. So far as we know the storm may still be raging though we have a hunch that Labor Minister Mitchell will wind up by rescinding Mr. White's order, even though, to the layman, the order contained the germ of good common-sense.

Lethbridge Herald.

## Samples Will Decide Awards

Competitors in the National Barley Contest are reminded again by the Contest Committee that November 30th is the

last day for getting in applications for judging if the barley is being held on the farm for seed.

If a contestant is shipping a carload lot entry he has until December 15 to get in his application for judging.

With carload entries, the samples for judging will be the official unload sample taken by the inspection branch of the Board of Grain Commissioners.

If the grain is being held on the farm for seed, the sample for judging will be taken on the farm of the contestant by a representative of the government Plants Products Division.

Judging shall be on the basis of the samples collected, cleaned to remove the dockage by the inspection branch of the Board of Grain Commissioners.

# THE CAR SENSATION OF THE AGE...

## the 'Jeep'

### READY TO DRIVE AWAY

The Jeep-of-all-Jobs Masters them all!

### Here are a Few of the Many Uses for a JEEP

#### It's a TRUCK!

The Universal "Jeep" carries a load of 800 lbs. or tows a 3,500 lb. trailer pay-load. With 4-wheel drive, the "Jeep" goes places ordinary trucks cannot go.

#### It's a TRACTOR!

The "Jeep", with four wheels pulling, works speedily and efficiently as a tractor... operating plows, harrows, seeders, manure spreaders, ensilage harvesters, etc.

#### It's a MOBILE POWER UNIT!

Through an ingenious rear-end power take-off, the "Jeep" delivers up to 30 h.p. for operation of power devices... takes the power where you want it.

#### It's a RUNABOUT!

The "Jeep" is handy for trips to town... road speeds up to 60. You can depend on your "Jeep" through mud, snow and sand... it goes where ordinary cars cannot.

It's the UNIVERSAL "JEEP"!

Its amazing versatility makes the "Jeep" the slickest trick on wheels!

When you need a handy pick-up or delivery truck... load up your "Jeep", or hook on a trailer! When there's plowing or discing or harrowing to be done... "harness" up your "Jeep"! When you need mobile power to saw wood, pump water, spray trees or operate any power device... hook up the power take-off on your "Jeep". When you want a runabout... hop into your "Jeep"!

Come in and see for yourself how this one vehicle will fill a multitude of your needs... and spread its cost over year-round everyday use. Choose from three colours—orange, yellow or green.

See... Drive...

## Three Kinds Of People

It is easy to generalize and say, "There are just two kinds of people in the world." The optimists, with rose-colored glasses who say "Everything will work out all right. It always has." And the pessimists, with dark brown taste, who say, "Everything is working out all wrong."

If there are only two kinds of people, the optimists will soon find their rosy glasses smashed. They will find that everything has not always worked out all right. They will find at least seven former civilizations that did not work out, that went out instead, and are now entirely extinct. They will find the present age speeding rapidly on its way to becoming the eighth extinct civilization. And that the pessimists are right in thinking everything is working out all wrong.

There is fortunately a third kind of person, neither those who think everything is all right or all wrong, but who think everything can and should be all different and are giving everything they have and are to make it so. As described by Peter Howard in his book "Ideas Have Legs" they introduce "into every equation of hopelessness the new element of change."

The fate of the world hangs on the success of this third kind of people. The fate of your town, of your business and of your street and home. Are you yourself one of these people? Or are you what Howard calls "one of the Missing and Misty Millions." These are the people, he adds, who say "that the world is in a mess but do not believe that they had anything to do with putting it there, and cannot see that they have a part in pulling it out again. They all want to have the other fellow changed and are all waiting for the other fellow to begin."

## Eight Judges

Headed by Dr. P. J. Olson, professor of plant science of the University of Manitoba, a panel of eight judges has been chosen to make the regional, provincial and inter provincial awards in the \$25,000 national barley contest sponsored by the brewers and malsters.

The judging will be done in the inspection branch of the board of grain commissioners at Winnipeg. Contestants have already been notified of extension of time for getting in their applications for grain judging.

If the barley is being held on the farm for seed the new date for filing applications for sampling of it is December 1st. If the barley is being shipped the application for judging must be mailed on or before December 15th. The old date was November 30th.

Some men fear responsibility more than they fear hunger.

The thing that keeps us apart from others is wanting to be better than they are.

Scientifically we have progressed far enough to split the atom. Now we must progress spiritually far enough to handle it.

## Economical Housewives

There was a day when the housewives bought the far-away "bargain" in the belief that it was good business to save a few pennies. But experience taught them a few things. Today's housewives do not buy blindly. They examine the article first and when satisfied with the product they pay a fair price at home. It is economical to make your purchases in
